RAISING THE STANDARDS IN LIGHTWEIGHT ROOFING

Introduction to Ecopan

Ecopan - Anthracite Grey

Ecopan is a tile-effect roof sheet designed to emulate an authentic pan tile. Constructed using the highest-grade Aluzinc steel and coated with a pigmented mineral-filled acrylic, Ecopan is designed to provide an attractive, lightweight, and economical finish for the park and leisure home industry.

Manufactured with 0.5mm galvanised steel, each Ecopan sheet has a cover width of 1000mm and is formed to give the traditional appearance of clay tiles while remaining extremely lightweight. The system is complete with our comprehensive range of accessories, including, ridge caps, barge boards, and fixings.

Once installed, our system provides a low-maintenance, durable roofing solution in a variety of colours and peace of mind with a 30-year warranty.

Crafted from premium metal materials, Ecopan offers a perfect blend of durability, aesthetics, and functionality. Its unique design not only enhances the visual appeal of any structure but also delivers unparalleled performance, making it the ideal choice for your roofing project.

Explore Ecopan's wide range of features and benefits:

- Discover a seamless installation experience of Ecopan, ensuring a hassle-free and efficient roofing solution for your next project.
- Ecopan weighs 6.4kg per sqm, providing both durability and efficient installation without compromising strength or performance.
- Embrace sustainability with Britmet. Our roofing solutions are crafted with eco-friendly materials and manufacturing processes, ensuring a greener footprint for your project.
- Discover economic excellence with Ecopan, offering exceptional value while maintaining durability and aesthetic appeal.
- Our dedicated team is committed to providing comprehensive support and expert guidance every step of the way.
- Experience unparalleled quality with Ecopan, designed to deliver superior performance, durability, and aesthetic appeal.
- Ecopan seamlessly blends classic aesthetics and modern engineering, offering a timeless appearance and innovative solution for your roofing needs.
- Engineered for lasting performance, Ecopan offers a robust roofing solution with a 0.5mm thickness gauge.
- Britmet roofing profiles offer unmatched versatility, adapting effortlessly to unique project requirements and architectural styles.
- Unlocking new possibilities for construction and design, Ecopan offers flexibility to achieve roof pitches as low as 10°.
