## SLATE 2000 ON SCHOOLS

Britmet Tileform lightweight slate 2000 system is the only true broken bond lightweight slate on the market. Giving you great slate aesthetics which will blend into any slate area. The slate 2000 profile

Is pressed from high quality Aluzinc steel in a 0.45mm and 0.9mm thickness and is then pressed into 5 slate repeats, so speed of fixing is 5 times faster than tradition materials.

Britmet Tileform's slate 2000 has a range of 6 beautiful colours, can be fixed to a roof pitch as low as 12°. Slate 2000 is BBA approved and warrantied for 40 years.

The Slate 2000 is available in a 0.9mm gauge, for high levels of foot traffic and vandalism areas, and can be fixed with powder coated fasteners screws into a 50mm x 50mm battens to give you a strong, secure and attractive roof.

The Britmet Tileform slate 2000 is an ideal school roof replacement for Low Pitch roofs, Over-roofing, Strip and replace of existing roofs, flat to pitch roof conversions and new build Schools

The Slate 2000 is easy to fix, fast to install and vandal proof has an extremely tough and durable roof coating, which is noise resistant and gives an attractive finish. Fully dry fixed and comes with a large range of accessories to finish off any roof.

When it comes to Low pitch, strength, versatility, flexibility and looks, the slate 2000 is the only choice and best of all is manufactured in BRITAIN.
