VILLATILE ON SCHOOLS

Britmet Tileform lightweight Villatile gives the appearance a double roman concrete tile. Giving you great tile aesthetics which will blend into any tile area.

The Villatile profile is pressed from high quality Aluzinc steel in a 0.45mm and 0.9mm thickness and is then pressed into 5 tile repeats, so speed of fixing is up to 5 times faster than tradition roofing materials. Britmet Tileform's Villatile has a range of 6 beautiful colours, can be fixed to a roof pitch as low as 10° and is BBA approved and warrantied for 40 years.

The Britmet Tileform Villatile is available in a 0.9mm gauge, for high levels of foot traffic and vandalism areas, and can be fixed with powder coated fasteners screws into a 50mm x 50mm battens to give you a strong, secure and attractive roof. It is an ideal school roof replacement, ideal for Low Pitch roofs, Over-roofing, Strip and replace of existing roofs, flat to pitch roof conversions and new build Schools

The Britmet Tileform Villatile is easy to fix, fast to install and vandal proof has an extremely tough and durable roof coating, which is noise resistant and gives an attractive finish. Fully dry fixed and comes with a large range of accessories to finish off any roof.

When it comes to Low pitch, strength, versatility, flexibility and looks, the Villatile is the only choice and best of all is manufactured in BRITAIN.
