Pantile 2000 on Schools

Britmet Tileform lightweight pantile 2000 system is the only eave to ridge, granulated tile sheet on the market. Available from 1.53m to 8m in length and is manufactured to suit your rafter lengths, so no wastage, cutting or head lapping necessary.

Pantile 2000 lightweight roofing has a cover width of 1040mm allowing for the fastest installation of all lightweight systems.

Britmet Tileform's pantile 2000 has a range of 6 beautiful colours, can be fixed to a roof pitch as low as 5°. The lowest BBA approved tile sheet in the world.

The Pantile 2000 is available in a 0.9mm gauge, allowing for batten spacing, to be extended to 1500mm centres and is tech screwed with a colour matching sela-head fastener, to give you a strong, secure and attractive roof.

The Britmet Tileform pantile 2000 is an ideal school roof replacement for Low Pitch roofs, Over-roofing, Strip and replace of existing roofs, flat to pitch roof conversions and new build Schools

The Pantile 2000 is easy to fix, fast to install and vandal proof has an extremely tough and durable roof coating, which is noise resistant and gives an attractive finish. Fully dry fixed and comes with a large range of accessories to finish off any roof.

When it comes to Low pitch, strength, versatility, flexibility and looks, the Pantile 2000 is the only choice and best of all is manufactured in BRITAIN.
