PANTILE 2000 GARAGES

Britmet Tileform lightweight pantile 2000 system is the only eave to ridge, granulated tile sheet on the market. Available from 1.53m to 8m in length and is manufactured to suit your rafter lengths, so no wastage, cutting or head lapping necessary.

Pantile 2000 has a cover width of 1040mm allowing for the fastest installation of all lightweight systems.

Britmet Tileform's pantile 2000 has a range of 6 beautiful colours, can be fixed to a roof pitch as low as 5°. The lowest BBA approved tile sheet in the world.

The Pantile 2000 is available in a 0.9mm gauge, allowing for batten spacing, to be extended to 1500mm centres and is tec screwed with a colour matching sela-head fastener, to give you a strong, secure and attractive roof.

The Britmet Tileform pantile 2000 is an ideal replacement for old Asbestos roofs, easy to fix, fast to install and vandal proof. The Pantile 2000 is great for Garages, Low Pitch roofs and Over-roofing low pitch felt roofs. By installing a tapered batten fixed to the existing structure to increase the height from the existing 3 degrees to 5 degrees and laying a breather membrane over the counter battens a 38mm x 38mm batten fixed at 1200mm centres and finally fix the pantile 2000 and accessories. This easy to fix pantile 2000 system allows for the existing roofs to remain in place, Saving on expensive decamping costs and removal of the existing roof.

The Pantile 2000 has an extremely tough and durable roof coating, which is noise resistant and gives an attractive finish. Fully dry fixed and comes with a large range of accessories to finish off any roof.

When it comes to Low pitch, strength, versatility, flexibility and looks, the Pantile 2000 is the only choice and best of all is manufactured in BRITAIN.
